GREEN ENTRE 4 FUTURE

DATE 31/11/2023

Edition #4

Dear reader,

□ **Join the Green Movement: Be the Climate Change Ambassador!** □

We are thrilled to share the updates of our project with you!

Dear Valued Readers,

We are happy to share some interesting news with you! In our ongoing commitment to promote a greener and more sustainable world and promote the Results of our project, we have created final events to involve as many people as possible and ensure that they embrace our mission.

Each partner has created Multiplier Events of the G4F project in their own country.

Each event was the ideal opportunity to share the results of the project with students, NEETs, teachers, youth workers and sector experts, who in recent months have contributed in various capacities to the implementation of the project activities.

We brought to the attention of those present all the problems related to the training of young people and NEETs, especially in relation to the possibilities of finding employment opportunities in the green economy sector, startups in sustainable tourism, cultural and

creative industries and urban revitalization based on heritage, important sectors capable of generating employment, stimulating local development and promoting creativity.

Several of our partner organizations participated in the events, including social cooperatives, schools and NGOs.

We shared with those present how to use the Project Results, starting from

 **Toolkit O1 “Be the ambassador of climate change” aimed at young people;**

We then showed the  **O2 MOOC “Build your Green Future” aimed at youth workers/experts/educators** and the courses available, inviting those present to register on the platform.

Next we focused on the  **“Quiz Game” and “Interactive Content”.**

The participants showed great interest and attention towards the project and its results, and at the end of the event there was a discussion on how to include them in their present and future working environments in the case of youth workers, and in their personal and professional path. life in the case of youth workers. young students and NEETs.

At the end of the event we distributed an evaluation questionnaire to collect feedback from participants.

Here are some photos of our events!

Multiplier Event in Cyprus

The Multiplier Event was led by Konstantina Sokratous, Director of CCIF Cyprus, Maria Moran and Marina Aristodimou on behalf of the coordinating team.

Mr Charis Pazaros, president of Ιεραίοι Κήτροι Danse School, addressed the event. Mr Pazaros spoke about the innovating actions of Ccif Cyprus on Climate Change, the approaches to sustainable development, environmental standards and the rapid transition to a green economy, addressed to audiences of different fields.

👍 The event was attended by 31 attendees from social, economic and business fields including trainers, teachers, students and citizens.

Multiplier Event in Netherlands

On the 24th of October 2023, Lidi Smart Solutions hosted their Multiplier Event for the Erasmus+ Project Green Entrepreneurship for the Future for Youth at The Hague University of Applied Sciences in The Hague, The Netherlands.

The Multiplier Event was led by Radina Stoeva, on behalf of the coordinating team of Lidi Smart Solutions.

The attendees had the opportunity to hear about the impressive project results.

This project has been funded with support from the European Commission under the Erasmus+ Programme. This publication [communication] reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

This event was attended by several stakeholders, mainly board members and teachers from VET schools, associations dedicated to innovation and entrepreneurship and policy makers, all of them dedicated to working with young people and guiding them in finding academic and professional paths for their future.

Participants had the opportunity to familiarise themselves with the knowledge and skills required in the field of green entrepreneurship.

feedback we received from participants was positive and served as a proof to the value of the initiatives presented.
